Description
Addressing ethnic cleansing, culture wars, human sufferings, terrorism, immigration, and intensified xenophobia, The Globalization of Racism explains why it is vital that we gain a nuanced understanding of how ideology underlies all social, cultural, and political discourse and racist actions. The book looks at recent developments in France, Germany, Greece, Ireland, Israel, Italy, Portugal, Spain and the United States and uses examples from the mass media, popular culture, and politics to address the challenges these and other countries face in their democratic institutions. The eminent authors of this important book show how we can educate for critical citizenry in the ever-increasing multicultural and multiracial world of the twenty-first century.

Explores new forms of racism in the era of globalization.
