

A. J. KAPPOS: LIST OF CITATIONS

- Publication number (see: <http://users.auth.gr/~ajkap/papers/Papers-EN.htm>) is given in brackets, while data in parentheses refer to the location (books, refereed journals, refereed conference proceedings, PhD theses) and date of the citation.
- The list does not include citations by co-authors or citations in PhD theses where Kappos is the supervisor or a member of the supervising committee.
- Citations in publications not written in English (and, to a certain extent, Greek) are only indicative, since there was no systematic method available for tracing them.
- **Current total number of citations: 792** (589 in publications in English, 160 in publications in Greek, 12 in publications in Italian, 5 in publications in Portuguese, 4 in publications in German, 2 in publications in French).
- The list does not include citations in publications in Japanese, Chinese, Turkish etc., due to lack of sufficient data (nevertheless, citations in these languages have been found in Google Scholar).

{1.1} cited by I. Tegos (*Prestressed Concrete* [in Greek], AUTH, 1993)

{1.4} cited by K. Anastasiadis (*Earthquake-resistant Structures* [in Greek], Vol. I, 1989).

{1.5} cited by:
